

Hello LIBPT Community,

LIBPT is open and we are committed to your safety and our safety. Thus, we are adhering to the [Center for Disease Control](#) and the [American Physical Therapy Association](#) guidelines.

- We have staggered our therapist hours so that fewer bodies are in the clinic at any one time.
- We are having our staff members stay home if they feel any symptoms of sickness.
- We have increased the frequency of cleaning commonly touched surfaces and equipment.
- We are wearing masks and washing our hands even more frequently than usual.
- We are able to take your temperature with a non-contact thermometer.

Patients:

- Please cancel your appointment if you are feeling any symptoms of sickness.
- Please cancel your appointment if you have been exposed to any confirmed cases of [COVID-19](#).
- Please postpone your appointment if you have travelled by plane anywhere in the last 14 days.
- Please continue daily healthy habits that boost your immune system and prevent the spread of colds and flus.
- Please wash your hands upon arrival at the clinic.
- Please wear a mask.
- Please let us know if you would like a Telehealth visit.

We look forward to every visit with you and wish you the best of health and happiness.

Thank you,  
The LIBPT Team

Physical Therapy is considered an essential critical workforce by the [U.S. Department of Homeland Security](#). If you are a post-operative patient, in acute pain, or have had to postpone a scheduled surgery, we can see you without a physician's prescription. Seeing us reduces the burden on primary care physicians and other providers during the COVID-19 crisis, freeing them to provide needed services to more acute or critical conditions.
